Top Initiatives in the House of Representatives

Supporting the Commonwealth's Fiscal Future

"I was honored to be part of the budget hearings as a member of the House Appropriations Committee and took my duty seriously to help craft a fiscally responsible budget."

The 2021-22 Pennsylvania budget supports the Commonwealth's fiscal future, education, police forces, infrastructure, elections, communities and most vulnerable populations. The budget includes no new taxes and no new fees. It puts more than \$2.52 billion in the state's Rainy Day Fund to be used for future emergencies.

The Commonwealth's COVID Comeback

"Our Commonwealth struggled with repercussions from COVID-19 for well over a year and continues to see effects today. I was proud to have a piece of legislation in the Commonwealth COVID Comeback package to help constituents get back on their feet."

House Republicans unveiled a pro-jobs, pro-families, pro-growth and recovery-focused legislative package designed to achieve a better normal. The package of bills incentivizes manufacturers and provides protections to small businesses, as well as offers tax and regulatory reform to bring family-sustaining jobs to Pennsylvania.

Committee Assignments

Appropriations Committee

The Appropriations Committee evaluates spending requests from state agencies and crafts a budget proposal. “I was thankful for this appointment at such a crucial time for our state’s economy.”

Judiciary Committee

The Judiciary Committee focuses on criminal justice reform, crime victims, firearms, law enforcement, animal cruelty and more. “As an attorney, Judiciary Committee issues are very near and dear to me. During my first term, I authored several pieces of legislation aimed to protect crime victims and address domestic violence.”

Human Services Committee

The Human Services Committee focuses on issues such as assistive technology, attendant care, substance abuse, homelessness, disability and mental health. “Getting our people the help they need to be a healthy member of society is vital.”

Liquor Control Committee

The Liquor Control Committee evaluates the Pennsylvania Liquor Code. “Businesses, specifically those that serve alcohol, struggled a great deal in 2020 while combatting COVID-19. I am committed to protecting these businesses and finding ways to assist in their recovery.”

Veterans Affairs and Emergency Preparedness Committee

The Veterans Affairs and Emergency Preparedness Committee will tackle National Guard personnel issues, flood/disaster assistance, volunteer EMS billing, arrangement of purchasing flags for veterans’ graves and emergency management inquiries. “Being a veteran myself, I know how important care for our veterans is.”

Select Committee on the Publican of Constitutional Amendments

This committee will complete a study of how constitutional amendments in the Commonwealth are advertised. House Resolution 91 calls for a committee to be created that will hold hearings, gather testimony and issue a report with recommendations. The legislation comes after the Pennsylvania Department of State (DOS) failed to properly advertise a constitutional amendment that would have allowed voters to decide if a two-year civil window should have been created to allow child sex abuse survivors to sue their alleged abusers. “I am humbled by our speaker’s confidence in me to lead this committee and lead the public to the answers they deserve.”

Steel Caucus Committee

The Human Services Committee focuses on issues such as assistive technology, attendant care, substance abuse, homelessness, disability and mental health. “Getting our people the help they need to be a healthy member of society is vital.”
